Electrical and electronic technicians build, test and maintain complex electronic equipment such as computers, control systems, communication networks, power systems, and medical devices. The Electronic Engineering Technology (EET) program at Bronx Community College prepares graduates to join the workforce as technical professionals in a variety of industries and services or to transfer to a four-year baccalaureate program in engineering technology.

The technical curriculum is combined with a program of general education to assure that graduates of the EET program have the prerequisite skills in reading, writing, and communication that are necessary to function effectively in the workplace. The Electronic Engineering Technology program is accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology: 111 Market Place, Suite 1050, Baltimore Md. 21202-4012; Telephone: (410) 347-7700. http://www.abet.org/

Electronic Engineering Technology students who plan to continue their studies may transfer directly to New York City College of Technology or other colleges offering the baccalaureate degree in Engineering Technology. Graduates’ transfer credits for technology courses taken at BCC will be evaluated by each college.

Program Objectives

Within two or more years after graduation from Bronx Community College students in the Electronic Technology Program are expected to be

- graduates of a four-year baccalaureate program in Engineering Technology or pursuing additional formal education;
- gainfully employed as engineering technologists;
- attaining increasing levels of responsibility in their chosen career; and
- respectful of cultural diversity and practicing the profession in an ethical manner.

Curriculum Coordinator: Dr. Jalil Moghaddasi

Graduate Outcomes

Upon graduation from Bronx Community College students in Electronic Engineering Technology will be able to

- join the workforce as engineering technologists;
- work effectively in a team environment; read and write effectively;
- use mathematics to solve problems in electronics; analyze and interpret technical data;
- read circuit schematics, select electronic components, solder and assemble circuits and printed circuit boards (PCBs); and
- simulate electronic circuits.

Annual student enrollment and graduation data for students in the Electronic Engineering Technology program

Electronic Engineering Technology Curriculum (Pathways)
66 Credits required for A.A.S. Degree

Required Core
A. English Composition
   • ENG 10 Fundamentals of Composition and Rhetoric OR
     ENG 11 Composition and Rhetoric I (3 Credits)
   • ENG 12 Composition and Rhetoric II (3 Credits)
B. Mathematical and Quantitative Reasoning
   • MTH 30 Pre-Calculus Mathematics (4 Credits)
C. Life and Physical Sciences
   • PHY 11 College Physics I (4 Credits)

Flexible Core
A. World Cultures and Global Issues
   • HIS 10 History of the Modern World OR
     HIS 11 Introduction to the Modern World (3 Credits)
D. Individual and Society
   • COMM 11 Fundamentals of Interpersonal Communications (3 Credits)
E. Scientific World
   • PHY 12 College Physics II (4 Credits)

SUBTOTAL 24

Required Areas of Study
• ART 10 Art Survey OR MUS 10 Music Survey (1 Credit)
• FYS 11 First Year Seminar 1 (1 Credit)
• MTH 31 Calculus and Analytical Geometry I (4 Credits)
• PEA Physical Education Activity Course (1 Credit)

SUBTOTAL 7

Specialization Requirements
• ELC 11 DC Circuit Analysis (4 Credits)
• ELC 15 Computer Applications in Technology (2 Credits)
• ELC 18 Computer Programming for Engineering Technology (2 Credits)
• ELC 21 AC Circuit Analysis (4 Credits)
• ELC 25 Electronics I (4 Credits)
• ELC 35 Electronics II (4 Credits)
• ELC 51 Electronics Controls (3 Credits)
• ELC 81 Electronics Communications (4 Credits)
• ELC 94 Laser and Fiber Optic Communications (4 Credits)
• ELC 96 Digital Systems I (4 Credits)

SUBTOTAL 35

1 Students must take FYS 11 prior to earning 24 equated or degree credits. Students who have earned 24 or more equated or degree credits are permitted to use the one credit as a free elective. It is highly recommended that students take FYS 11 in their first or second semester.
