
CUNY ONLINE (DISTANCE LEARNING) COURSES AT BCC

What are Distance Learning Courses?

In Distance Learning Courses, part or all instruction is conducted online, using the Blackboard Course Management System.

There are two types of Distance Learning Asynchronous

- Hybrid Courses: One-third to three-quarters of coursework is conducted online and the rest is in a classroom or lab.
- Asynchronous Courses: 75% or more of the traditional coursework is conducted online.

The exact amount of in-class and online time varies. See the list of courses on the following page and contact the individual instructors to learn more about specific classes.

Should I take a Distance Learning Course?

To succeed in Distance Learning courses, students must be self-disciplined and good at managing their time and following directions. These characteristics are much more important than skill with computers.

What is required to take a Distance Learning Course?

- It is strongly recommended that students have access to the Internet at home. It will be very difficult to take a Distance Learning course without online access at home.
- Basic Knowledge of a word processor (Microsoft Word is strongly recommended) and a web browser (Internet Explorer and Mozilla Firefox are the most used browsers).
- 2.0 GPA or Higher for Continuing Students.
- Students who are new to the college are strongly urged to consult an advisor prior to enrolling in a Distance Learning Class.
- A CUNY Portal Account and an active BCC Email account. All students have a BCC email account.
 - To use or activate your email account, go to: www.bcc.cuny.edu/email.
 - To use or create a CUNY Portal account, go to: portal.cuny.edu, then click on "Log-in".
 - If you experience difficulty with either mail or portal accounts contact the Help Desk at 718-289-5970 or helpdesk@bcc.cuny.edu.
- For Further information please visit http://www.bcc.cuny.edu/OnlineLearning/?page=Current_Students
