About the Program

Effective Fall 2009, college C.P.A. programs registered with the New York State Education Department must offer a curriculum consisting of a minimum of 150 credit hours. In line with this change, since Fall 2009, the Department of Economics and Business offers, in addition to the B.S. in Accounting, an M.S. in Accounting program for those students who choose to take the additional 30 credits toward this graduate degree. However, specific admission requirements are in place to gain admittance to the M.S. in Accounting program.

All students are admitted to this major on a provisional basis. To maintain matriculation, the enrollees must attain a minimum cumulative index of 2.7 (B-) in the first four ACC-prefixed courses. Students who fail to fulfill this condition will be removed from the BS in Accounting program. These students cannot switch to BBA. However, they may switch to BA in Economics or BA in Accounting. These students may also count the previously taken ACC-prefixed courses toward a minor in Accounting.
