<sup>1</sup> This program has obtained a waiver to require STEM variant courses in Required Core Area B and Area C and Flexible Core Area E. If students transferring into this program complete different courses in these areas, they will be certified as having completed the Common Core requirements, but it may not be possible for them to finish their degree within the regular number (60) of credits. <sup>2</sup> For students who take MTH 30 to fulfill the Required Core, there will be no free electives. <sup>3</sup> See your department advisor for the appropriate sequence of specialization courses.
