APPROVAL PROCESS TO USE THE GEOSPATIAL COMPUTING CENTER

The Geospatial Computing Center is a State-Of-The-Art facility at the Geospatial Computing Center in 330, Meister Hall. It is a facility under the BCC Geospatial Center of the CUNY CREST Institute (www.bcc.cuny.edu/geospatial/). The Geospatial Computing Center provides a one-stop computing environment for analyzing geographic and time series of multispectral and imaging spectrometry airborne and space borne datasets. It offers the latest toolsets (per-pixel and object based) for classification, automated feature extraction and modeling of geospatial data. The center welcomes all students, faculty and collaborators who wish to use the geospatial computing center. The geospatial computing center stores highly sensitive databases and specialized industry standard software and hardware and must not be scheduled as a classroom.

Print your complete name here: ________________________________________________________________

Current affiliation with complete contact details including email id/s:

__________________________________________________________________________________________

*If you are a part of a funded program or working under a supervisor, provide complete contact details of your supervisor. Your supervisor’s written approval may be required prior to filling up this form.

Briefly describe the purpose for using the Geospatial Computing Center:

__________________________________________________________________________________________

__________________________________________________________________________________________

__________________________________________________________________________________________

Describe the software or suite of software you may need for your project or task/s:

__________________________________________________________________________________________

__________________________________________________________________________________________

__________________________________________________________________________________________

*If you wish to learn GIS then mention that clearly, otherwise we expect you to be aware of your specific needs.
Provide the start and end date for your project:

<table>
<thead>
<tr>
<th>START DATE:</th>
<th>END DATE:</th>
</tr>
</thead>
</table>

Which days would you like to work in a week? Note the center is only open from Monday-Friday (9:30am-3:30 pm)

<table>
<thead>
<tr>
<th>Monday</th>
<th>Tuesday</th>
<th>Wednesday</th>
<th>Thursday</th>
<th>Friday</th>
</tr>
</thead>
<tbody>
<tr>
