For adjuncts, thsy shouldn't have too much on their plate, or more than the average perminaeant profezsor. But rather better Office times (if actually given an office), and mangable schedule per teaching hours. I just feel that adjunts should have more benefits, if not the same, then equivalent as any other professor. Also, the food prices in the cafeteria ShouldNot, i repeat, SHOULD NOT be so pricey, and its not even the Actual rezturant (au bon pain), or ivy league school. And lastly, when it comes two students having to print something in color, especially art students, the art lab, and one of the labs in Meister Hall, should not be the only two Labs that do color printing. However, now that the School library has upgraded a bit, we have good color printing, however not the same CSS as the Art Labs (ex. CS4 to CS6, or 2013 vers. Vs. 2016/17 vers.). Most Labs should be in sync, just about when it comes to it's printing resources/abilities.	1	.1	.1	84.2

Honestly, I'm glad by being student at Bronx community college. There are good professor and students are friendly. The only problem is that some advisors on the ASAP are not really helpful for students. They make people taking some classes that they don't even need it and not necessary just to make money for the school but it's not fair. They should know that all student don't have chance to have any financial aid. So they have to everything on the own.	1	.2	.2	84.8

How to improve academic advisement service ! Once you go there, they never care you. They just talk themselves and you wait outside. You should put complain box or complain # . In this way, we can communicate. To me, those academic adviser are obese. They don't know what they are doing. Sometimes, I have question about their qualification. Another thing to increase library hours. It will be great helpful for students.	2	.2	.2	85.2

I am very happy to be at BCC but that doesn't mean I have better life... cz be an immigrant...	1	.1	.1	85.4
I believe the security of the campus should be taken into consideration. There is not sufficient safety precautions taken, it's extremely easy for someone to enter the campus and the security guards that are present and mostly talking to each other and not even paying attention to the people entering. There should be a better security system in order to gain entrance to the campus. Possibly having to swipe our ID card I order to enter the campus and also the buildings. With the amount of school shootings that have been occurring that should be a huge concern and should be a high priority for the college.	1	.1	.1	85.6

I think financial aid should help out more and make a list specifying what students need to apply and make sure students understand the list. I also think their should be a mandatory group meeting when entering bcc that shows first time students how to use degree works pathways /cuny first / blackboard/Osses/Starfish which I don't even know how to use all of those services,and make sure students know on their own, the classes needed for their major and go into detail about which classes they need	1	.1	.1	88.4

My biggest concern with this school is that, i will NOT be prepared for another collage or work field, teachers here are very messy, unorganized and they loose a lot of time and dont cover full material. They make mistakes and blame the students, iv witness 3 different situations that had nothing to do with me but i felt really bad for that student (A girl in class turned in her work days early and the teacher kept loosing them). I am glad that i am quick on my feet and not a push over and i speak my mind but im sure other students are not as fortunate. I believe teachers should be evaluated randomly.	1	.1	.1	92.0

Overall, I think there should be a way to review a professor before registering for their class. I say this because I believe that students really should match up with professors. Some students learn better when teachers zoom by topics and some students need more focus on particular topics before moving forward and need a teacher who's going to be patient in answering questions and slowing down a bit. Also, some professors have hard accents to understand sometimes and if students can't accurately make out what they're saying, it makes for a more difficult class.	1	.2	.2	94.5

The bathrooms in the Meister building need repair. There is no privacy I can see the person using the restroom fully just by walking by. I have to use my jacket as a shield to keep from being exposed while voiding. In the summer time I'm screwed. A stranger will see me exposed. Doors do not lock. There is rarely any soap to wash or tissues for hands to dry. In the Winter, classes in Meister and the Language building are freezing. What happens to the heat? Students sit in class with jackets, scarfs and hats on. I have had classes in the weekday (morning, afternoon, evening) and I have had classes on the weekend (morning to afternoon) and always had the same issue with heating in the winter. We freeze while trying to learn! Cafeteria is pretty small for the student capacity on campus, in my opinion. Not many options either. I do not appreciate a hold being put on my account for not seeing an advisor. I am an adult and I know if I need to see my advisor. I can't register without seeing them, yet money is still automatically taken out of my account every month for tuition. No hold for that? Very unfair. That protocol should be removed immediately. You stop me from registering for classes with a 3.7 GPA, but continue taking my money. Please fix this! Thank you.	1	.2	.2	97.0

The staff especially advisement doesn't seem to know much and aren't very helpful. And coming into a new school with different sets of rules can make you feel like you have your back against a wall. Tutoring should be more easier as its there to help students understand what they don't understand inclass... so tutors must cooperate when any student should say go over the entire topic because they don't understand, instead of telling student they have to have a direct question.. and to me that is a direct question. We need more hours to be given to tutors, they help out a lot. The academic semesters should be extended in order to allow more time for professors to teach at a more reasonable rate, thereby, allowing students to firmly grasp concepts and adequately cover materials being taught. We need more time in school and less time for leisure, especially for STEM majors (emphasis added). Finally, the food in the cafeteria should be more affordable for us to purchase. This will eliminate time wasted going outside of the campus to find an affordable meal for students. In addition, this shall increase revenue for the school.	1	.2	.2	99.7

we need more professors who value their job, and real help students who are slower in articulating and comprehending the work given to them, we all learn at a different pace.
