Applications	Department	Description
Hobsons-Connect	Admission's Office	Hobsons solutions enable educators to improve college and career planning, admissions and enrollment management, student success and advising
HR Apps	Human Resources	Used to update faculty and staff information
Hummingbird 14/HostExplorer	Various	Terminal emulation connection to enterprise hosts
IDWorks	All	Produce high-quality cards simply and securely with ID Works® identification software
Isonas	Public Safety	Door access application for Public Safety
Keyboarding Pro 6	Business Lab	Interactive and engaging software combines new-key learning and skill building to help students master the proper methods for keyboarding
Keywinz	PPS	Software solutions used to manage properties
Linux on Windows	Students/faculty/staff web servers	Windows Subsystem for Linux (WSL) is a compatibility layer for running Linux binary executables (in ELF format) natively on Windows 10
Linux (Centos7)	Faculty and Student	CentOS is a Linux distribution that provides a free, enterprise-class, community-supported computing platform functionally compatible with its upstream source, Red Hat Enterprise Linux
LT LabStation	Biology Science	Lt LabStation is a laboratory-based education platform designed to be used with PowerLab. It enables educators to create their own experiments for their students to complete in the lab.
Maple	Math Dept.	Math software that combines the world's most powerful math engines with an interface that makes it extremely easy to analyze, explore, visualize, and solve mathematical problems
Mathematica	Math Dept.	Symbolic mathematics and graphics system
Matlab	Physics & Technology	Mathematics software suite
McAfee Endpoint Security	All Local Workstations	It provides a framework that allows multiple endpointdefense technologies to communicate in real time to analyze and collaborate against new and advanced threats
Media Composer	Media Technology	Avid Media Composer is a film and video editing software application or non-linear editing system
Medisoft Advanced	Paralegal Lab	Workflow engine to manage scheduling, billing and revenue cycle
MS Office 2016 / 2019	Various	A version of the Microsoft Office productivity suite, succeeding both Office 2013 and Office for Mac 2011
MS SharePoint	Various	A browser-based collaboration and document management platform from Microsoft
MS Visio 2016 / 2019	Various	Simplify and communicate complex information with data-linked diagrams that you can create
MS Visual Studio	Various	A rich, integrated development environment for creating applications
NI Multisim Simulation	Physics & Technology	Circuits teaching application software for analog, digital, and power electronics courses and laboratories
Notepad+++	Various	A simple text editor for Microsoft Windows and a basic text-editing program which enables computer users to create documents
OSSES	All	One Stop Shop eServices
Pharos Printing System	Office Of Information Technology	Control Pharos-enabled printers
Phython	Math & CSI; Business & Informtion Systems.	An interpreted high-level programming language for general-purpose programming
PitneyBowes SendSuite	Property Management	Inventory management System
President Tracking System	Office of the Pressident	To track all correspondents directed to the President of the College
Procare	Children's Center/Bursars	Child Care Management Solution
Process Maker	Human Resources	Workflow software that can assist organizations of any size with designing, automating and deploying business processes or workflows of various kinds
Protools	Art & Music; Media Technology	Software to create digital music
Quickbooks	Accounting/Business & Information Systems	Accounting software
RBC Differential Simulator	Biology Science	A resource for practicing RBC morphology evaluation
Report Exec	Public Safety	An incident reporting and security management system designed for various organizations, corporations, and industries
SAS 9.4	Biology Science	Analytics Software
Scholarship Manager	Financial Aid	Provides a comprehensive solution for BCC's scholarship program
Simplicity	Faculty and Student	An online library of career development resources
Snagit App	Office Of Information Technology	Capture video and screenshots on desktop
SPSS 24	Various	Statistical analysis and reporting: Address the entire analytical process: planning, data collection, analysis, reporting, and deployment
SQL Management Studio	Office Of Information Technology	A software application used for configuring, managing, and administering all components within Microsoft SQL Server
SSAM	All	Self service account that allows you to claim your Bronco ID and reset password
StarFish	Faculty and Student	Accademic advisement program currently used by the ASAP Program
Survey	The Testing Office	A method of gathering information from individuals
Terrset	Students (Geospatial)	Geospatial software system for monitoring and modeling the earth system for sustainable development
Titanium	Various	Scheduling software
Track-it	Office Of Information Technology	Ticketing System
Turning Point	Councel's Office	Polling software
Tutor Reading	Education & Reading	Check-in program for labs
Tutor Trac	Students and Faculty	The complete management solution developed for the specific needs of learning, writing, tutoring, academic skills and other centers that
Video Insight	Public Safety	Software to monitor security cameras around campus
Vmware Horizon Client	Various	Allow you to connect to your VMware Horizon virtual desktop from your device of choice giving you on-the-go access from any location

Applications	Department	Description
WBC Differential Simulator	Biology Science	Simulators include 12 expert-reviewed differentials, each with 100 slide images. Students Perform the differential and compare their cell identifications with the experts
Weather Station	All	A device that collects data related to the weather and environment using many different sensors
Webscape 2.0	World Languages & Culture	Service provided for placement into Spanish and French classes. The exam can also test for other languages (Italian, German, Chinese,
Website	All	College Website
Webwork	Mathematics & Computer Science	An online homework delivery system primarily used for mathematics and science
Winzip 11	Human Resources	A shareware file archiver and compressor for Windows, macOS, iOS and Android
Wirecast Studio	CTLT	A software for streaming and recording high-quality live video
Writing Center App	The Writing Center	Application used for signing and keep track of Tutor hours
X ray system	Student and Faculty	Used to train students under the Nursing major how to take X Ray pictures
YuJa	CTLT	Enterprise Video Platform
ZoomText	Various	Zooms in on screen to make thingb easier to see
