History of College Discovery

The College Discovery (CD) Program has been a part of CUNY (City University of New York) since 1964 when it was established by a resolution of the Board of Higher Education. The program began as a five-year experiment which sought to demonstrate that, with the proper supportive services, students who were being excluded from the University because of existing admissions criteria could attain a college degree. In 1969 the Program was extended beyond its experimental phase and became a permanent University vehicle in the community colleges for developing college potential among disadvantaged students. The success of College Discovery is reflected in the performance of its students. Retention and graduation rates consistently exceed those of regularly admitted students.

Mission of College Discovery

The mission of the College Discovery program is to provide college supportive services to select students who show potential for success, but have defined educational and economic needs. College Discovery stimulates and supports the intellectual, personal, and professional growth of students through college orientation, tutoring, one-on-one counseling, supplemental instruction, and financial support.

Requirements for Transfer to Special Programs at a Senior College

TRANSFER TO A CUNY SENIOR COLLEGE
Search for Education, Elevation and Knowledge (SEEK) Programs
Student must complete all requirements for the Associate’s degree at BCC. Student must complete the CUNY Transfer Application online. A Special Programs Transfer Request Form must be completed by your CD counselor to be considered for the SEEK Program. This form will be sent directly to the City University’s Application Processing Center (UAPC) and to the SEEK Program for the senior college you would like to attend. This transfer form is available in the CD main office, Loew Hall, Room 406. See appendix L for a sample of this form.

TRANSFER TO A SUNY COLLEGE
Educational Opportunity Programs (EOP)
CD students are eligible to transfer into a participating SUNY college’s Educational Opportunity Program (EOP). These Special Programs are similar in structure to the CD Program. The services and resources they provide are intended to help you achieve your educational goals. Complete the transfer application for the SUNY College. Request information regarding Special Opportunity Programs and follow application procedures. Request to have Special Opportunity Program status transferred through the appropriate verification forms of the college. After you have received your acceptance letter from the senior college,
follow the necessary steps for financial aid and admissions. This transfer form is available in the CD main office, Loew Hall, Room 406.

TRANSFER TO ALL OTHER COLLEGES OR UNIVERSITIES

Higher Education Opportunity Programs (HEOP)

Private colleges offer Special Program benefits through their Higher Education Opportunity Programs (HEOP). Students should contact the college or university to determine if they offer such programs. Complete the transfer application for the private college. Request information regarding Special Programs and follow application procedures. Request to have Special Program status transferred through the appropriate verification forms of the college. After you have received your acceptance letter from the senior college, follow the necessary steps for financial aid and admissions. SOME OF THESE APPLICATIONS MAY BE AVAILABLE ONLINE IT’S NEVER TOO EARLY TO DISCUSS TRANSFER WITH YOUR COLLEGE DISCOVERY COUNSELOR.
Minimum Credit Load

You must be a full-time (minimum course load of 12 credits/equated credits per semester) matriculated student to be eligible for College Discovery. Exceptions to full-time status can be granted under certain conditions. Under some circumstances, students may be allowed to reduce their full-time status to a minimum of 9 credits to remain eligible for CD benefits. All exceptions must be recommended by the student's assigned counselor and approved by the Director. **You should meet with your counselor before withdrawing from a course(s).**

Equated Credits

Equated credits apply only to remedial courses. The contact hours for remedial courses are counted and called "equated credits" to determine tuition, fees, and status (full-time or part-time). For example, MTH 05 carries 0 credits, but 6 equated credits. Full-time students must maintain 12 or more credits or equated credits.

Reinstatement

CD students who stop attending for one (1) semester or more must apply for reinstatement. Students may be reinstated into the CD Program if they have taken a leave of absence for military, financial, health, or personal reasons. Each student's application will be considered for reinstatement at the discretion of the director, subject to budgetary constraints, and space availability. A reinstatement application should be completed when the student returns to BCC and registers full-time for the semester.

Academic Standing

Academic Probation and Academic Dismissal College Discovery students are subject to the University's minimum retention standard as amended by the Faculty Council of the Bronx Community College. A student who falls below the Minimum Retention Standards for one semester is placed on “Academic Probation.” If the student does not increase his/her GPA to meet the minimum standards at the end of the successive semester, he/she will be placed on “Academic Dismissal.” Thus, any student with a GPA that is below the minimum retention standard for two (2) consecutive semesters will be dismissed. If this occurs, the student may meet with their counselor to discuss filing an appeal to return to BCC under “Special Probation”.
Remediation and Placement Testing

All entering freshman students are given placement exams in mathematics, reading and writing. Those students whose results indicate a need for additional skill development will be required to take the appropriate course(s). The remedial classes offered are ESL 01, 02, 03, ENG 01, 02, 09, MTH 01, 05, 06, and RDL 01, 02. Remedial classes are zero credits; however, they are counted as equated hours. MTH 06 is a pre-requisite class for certain majors only. In some cases, students will have to fulfill the basic skill requirements before registering for some credit bearing courses. Students have an opportunity to complete basic skill requirements in the Summer and Winter Programs that are free for participants.

Students are encouraged to complete the basic skills requirements as soon as possible, but no later than the first two semesters at BCC. Speak to your counselor about summer and winter classes.
