Radiological Technology (A.A.S. Degree)
Department of Nursing and Allied Health Sciences

Eligibility requirements for admission to the Radiologic Technology course work (RAD and CLE designated courses):

- A. Achieve a minimum grade of C+ in BIO 23 and B- in MTH 28/28.5 by the conclusion of fall semester prior to entry.
- Students will be selected into the program mid-spring semester. The Radiologic Technology Program only accepts students once a year for the subsequent fall semester.
- B. Be CUNY English proficient.
- C. Students are allowed two attempts to achieve a C+ in BIO 23 (Human Anatomy and Physiology) and a B- in MTH 28/28.5 (College Algebra and Elementary Trigonometry).
- W/WU grades will count as an attempt in these two courses.
 - Students must have completed BIO 23, MTH 28/28.5 (or equivalent for transfer students) within seven years of the date of admission into the Radiologic Technology Program.

The Radiologic Technology Program's Committee on Admissions and Waivers has the right to allow the student an additional attempt when there is evidence of extenuating circumstances. Extenuating circumstances need to have legal and/or official documentation and must be presented to the Committee on Admissions and Waivers before a waiver will be granted.

Students eligible to enter the first Radiologic Technology course will be admitted as follows:

- A. A minimum cumulative GPA of 2.8, including all prior non-BCC college coursework, if applicable. (Students may be required to provide official transcripts for non-BCC coursework, upon request.) As the program is competitive, a GPA of 2.8 does not guarantee that the student will be accepted into the program. Seats are limited based on clinical placement capacity.
- B. Students will be selected based on highest to lowest GPA until the available seats have been filled.
- C. If two students have the same average, a student who has completed more credits at BCC will be given preference.
- D. Students who have not completed Anatomy and Physiology I and II at the same college must provide documentation that they have covered the full academic content of BCC's BIO 23 and 24.
