Admission and Reinstatement into Medical Laboratory Technician (MLT) courses

A. Students wishing to enter the Medical Laboratory Technician curriculum must complete the following pre-MLT sequence with a minimum index of 2.0: BIO 11 or BIO 23, ENG 100/110/111, CHM 17, MTH 28 or MTH 28.5.

- I. Students taking the pre-requisite courses are considered pre-MLT.
- II. To be considered/accepted into the MLT program, students must complete the prerequisite courses in addition to filling out the MLT application and sitting for an interview with the Program Director. If the student has completed or is completing all prerequisites, achieved a 2.0 GPA, and shows promise during the interview then the students status becomes MLT.

B. Subject to space availability, the guidelines for reinstatement into the MLT program or repeating a given MLT course shall be:

- I. Students with a W in a MLT course during the previous semester that were doing well in the MLT program but withdrew because of illness or personal reasons.
- II. Students returning after an absence of one or more semesters from the MLT program, who were doing well in the program prior to their absence.
- III. Students who did not achieve at least a C in their first attempt in any one MLT course will be placed on a waiting list. Students will be able to re-register according to the following priorities:
 - 1) Students that have been on a waiting list for at least one semester
 - 2) Students that have been on the waiting list for less than one semester
- IV. Exceptions to these regulations are possible only through appeal to the MLT program director.
