# Liberal Arts and Sciences, AA, and Options

# **ABOUT THE PROGRAM**

The Liberal Arts and Sciences curriculum prepares a student to be an accomplished and productive human being. A liberal arts degree opens doors to a world of knowledge and to rewarding and responsible careers. Future teachers, lawyers and influencers, for example, develop themselves as well-rounded individuals, in addition to completing their pre-professional work. The academic experiences in liberal arts and sciences provide the foundation for later specialization, graduate study and professional school.

The general Associate in Arts (AA) provides a wellrounded background and the opportunity to explore a variety of subject areas so that graduates may transfer to the third year of a senior college. Those who wish to pursue a program that allows a greater degree of specialization in the first two years of college may select one of the following options: Early Childhood and Childhood Education; History; Human Services; Media Studies; Performing Arts; Political Science; Psychology; Secondary Education; Sociology; Spanish; Speech Pathology; Studio Art. Please note that AA curricular requirements and option descriptions immediately follow this page.

The AA Liberal Arts and Sciences program is available for students in the traditional, in-person format as well as partially or fully online.

Note that while the program can be completed fully online, more course options are available to students in-person than online.

## **Learning Outcomes**

Upon successful completion of the AA Liberal Arts and Sciences program requirements, students will be able to:

- 1. Demonstrate a broad knowledge base from the humanities, social sciences and natural sciences.
- 2. Evaluate and analyze a range of artistic, historical, literary and philosophical works.
- **3.** Examine the formation of individual and group behavior, and social institutions and processes.
- **4.** Develop an ability and a cultural context for communication in a language other than English.
- 5. Communicate effectively through written and oral forms.
- 6. Demonstrate informed critical thinking.
- 7. Engage in quantitative reasoning and scientific inquiry.
- 8. Demonstrate an awareness of diverse cultures.
