About the exhibition:

The term “accretion” is often applied in the natural sciences of biology, geology, and astronomy, but in its most general sense, the word denotes growth from a gradual, additive process. The artistic accretions of BCC’s own highly accomplished Art and Music Department faculty will be on display in the Hall of Fame Gallery in an exhibition running from December 14, 2023 to February 14, 2024. Multimedia sculptural works and musical compositions completed over several years will be showcased, as will drawings, paintings, mosaics, photographs, and writings inspired by the growth of the natural and constructed environment.
