## Plan Guide

- 1 If walking, walk briskly or "with purpose."
- 2 If using a walk/run Interval, begin with one minute intervals. For example, run one minute, walk one minute. Gradually increase the run interval as the running becomes easier to run 2 minutes but keep the one minute walk interval. Build the run interval to five minutes.
- 3 When running, set a comfortable pace. You should be able to carry on a conversation while running.
- 4 Take walk breaks as needed, until you build
- 5 Cross-train one to three days per week. For example: stretching, swimming, spinning, weight training, yoga, etc
