

LIBERAL ARTS AND SCIENCES

Associate in Arts Degree | Transfer Degree | World Languages and Cultures

Program Description

Liberal Arts and Sciences: Spanish Option

The Liberal Arts and Sciences curriculum prepares a student to be an accomplished and productive human being. A liberal arts degree opens doors to the professions and to rewarding and responsible careers. Future physicians, teachers, scientists, lawyers, and businesspeople, for example, develop themselves as well-rounded individuals, in addition to completing their pre-professional work. The academic experiences in liberal arts and sciences provide the foundation for later specialization, graduate study, and professional school. The Spanish Option offers a greater degree of specialization.

The AA Liberal Arts and Sciences: Spanish Option program is available for students in the traditional, in-person format as well as partially or fully online.
