The Paralegal Studies Curriculum was developed according to guidelines provided by the American Bar Association’s Standing Committee on Paralegals. It offers students a background in the legal fundamentals, appropriate skills and practical experience necessary for professional employment. The paralegal can perform tasks delegated by a lawyer as long as the lawyer is responsible to the client and assumes full professional responsibility for the work. A paralegal cannot give legal advice, appear in court (except as permitted by law) or set fees.

There is an increasingly wide range of paralegal job opportunities in both the private and public sectors. Law firms, banks, accounting firms, insurance companies, brokerage houses, the court system, schools, hospitals, welfare centers, public program law offices, neighborhood legal centers, legal aid offices and national, state and city government agencies all employ paralegals. Federal, New York State and New York City civil service systems have paralegal job classifications. The paralegal program gives the student a broad range of employment opportunities.

A paralegal education can prove to be a good background for an executive career in professions other than law and for the law profession itself. One can apply earned credits towards a law-related bachelor’s degree. The program has a large liberal arts component, which enables students to continue their education after completion of the AAS Paralegal Degree.

The Paralegal Studies curriculum emphasizes business and law courses that prepare students for employment that includes research, writing and other tasks commonly assigned by law firms to paralegals. The curriculum features a 210-hour internship (LAW 98) component in which students work in a legal setting. This exposes students to the legal profession and makes them further aware of their ethical and professional responsibilities.

The goals and objectives of the program are:
• To acquire an Associate in Applied Science Paralegal Studies degree or a Paralegal Certificate.
• To provide the students with a background in the legal fundamentals, appropriate skills and practical experience necessary for professional employment.
• To give students a broader range of employment opportunities, the curriculum offers a wide variety of business, law and liberal arts courses.
• To give students the opportunity to continue their education after completion of the AAS Paralegal degree. This is met by the curriculum’s large liberal arts core. Students have the automatic right to transfer to any of the City University of New York’s (CUNY) senior colleges upon receipt of their Paralegal AAS degree. We presently have an articulation agreement with New York City Technical College as well as with SUNY Canton and SUNY Empire State.
• To expose our students to the legal profession in which they will be employed. This is met by a 210 hour working internship in a law related facility.
• To provide students with knowledge of the ethical responsibilities and the legal restrictions placed on legal assistants.

Upon completion of the program, the student should be able to perform the following tasks:
(i) Draft legal documents
(ii) Conduct legal research
(iii) Assist attorneys preparing for trial
(iv) Interview clients

The Lay Advocate Option prepares students for service to people and institutions that are concerned with the criminal system, family law, the poor, the mentally and physically handicapped and the elderly.

The Paralegal Certificate is designed for advanced students who already have a minimum of 60 college credits or a two-year degree. A credit or noncredit internship is optional.

Approved by the American Bar Association
